

# EL-500

1/2" OVAL SHAPED END LINK

END LINK

Weldless endlinks are produced from a single piece of metal eliminating the possibility of weld failure. This high strength load-rated link is ideal for use in coupling multiple span sections together, such as wire rope and rigging chain. Multiple sections of wire rope and rigging chain link together, using shackles. Its oval shape is designed for in-line use and is not to be side loaded.
